The Dillsburg Banner is sold for 25¢ at the following places: Myers Food Mart, Ltd., Mart, Jones Newmarket, Jans Food Shop, Lushers Pharmacy, Shillineau's, Dillsburg, Kaufman's Country Kitchen, and at the Banner office.

**Letters to the Editor**

Letters to the Editor are welcome. They do not necessarily represent the views of the paper. If you want to have your name printed, please send your letter to the Dillsburg Banner, 31 S. Baltimore Street, Dillsburg, PA 17019.

Please include your name and phone number. Letters unsigned will not be printed.

**Dear Editor,**

Thank you for Mr. Silver's letter in the April 24th issue of the Banner. We, too, have questioned the accuracy of Mr. Middlemarch's reporting. He seems to omit many details in his reports columns and only highlights a chosen few. Whether or not he agrees with the facts is irrelevant to good reporting. We do not feel he is a credit to The Banner's integrity.

We would hope he could realize that we take more than one or two news items to make a news week. A coach spends the entire season working with the team. Let's credit his ability to know the most valuable player.

Joe Shaffer  
Walsh West

**Dear Editor,**

With Earth Day being the past week, it might be appropriate for the people of the community to know how the Northern York School District conducted its pollution program.

Many people do not know that the school district has been using the waste behind the Northern Elementary School as a dump site. This facility appears to fail to meet any of the federal regulations, and I doubt that either of these organizations knows of this site.

Plastic, aluminum cans, glass bottles, and plastic containers are buried in the ground. All of these products can easily be recycled. Instead, they would rather pollute the air by burning the ground waste which may put into the drinking supply, and destroy the wildlife in the woods. Love, Love what they are doing but I feel this is poor judgment on the administration part. Our children's safety could be at risk, and the community is obviously being put in danger. Something should be done!

T. Schaffer  
Concerned Citizens

**Dear Editor,**

I am a student at Northern High School and have a concern with the school's surroundings. My classmates and I, during our Earth Week activities, came across an unauthorized, unpermitted landfill on our school grounds. It is located so that few people can find it. Plastic, glass bottles, and aluminum cans are dumped here where they can be never thought of again. Some steps in helping resolve this problem may include:

First, notifying some political figure of this fill. The school could then get authorization and the proper protection for the surrounding environment from this trash.

Second, most of the trash sent here can be recycled. The cans, bottles, and paper could be recycled through a specific recycling through the district. This would help the environment by being conscious of waste and eliminate the landfill altogether.

Third, the people of the township should be told of this hazard and be left to decide its fate. The people have lived with it without knowing its harmful effects and, now they should decide about its future with knowing these facts.

Thank you for hearing the concerns of the next generation and we hope the people of the community can seriously resolve this problem.

Chris Fisher

**Dear Editor,**

I have written this letter to bring to your attention a terrible environmental disaster that lurks right here in Dillsburg. Behind the Northern High School there is a large dump. According to the EPA there are several necessary precautions to take before dumping trash. I am scared to think what is polluting our drinking water every day. Please let the community know about this injustice.

Dan Shovers

**Dear Editor,**

I am writing about a matter of safety concerning the surrounding community. Being a sixth grade student at Northern, I am studying Chemistry. During Earth Week, our state examined aspects of the environment. As a result, we learned of a dump behind the High School. I feel that the residents of Dillsburg should be informed about this hazard so our environment. This open trash site appears to be under no regulations, thus it could easily be poisoning soil or ground water. Hopefully this will educate some of the citizens and encourage them to investigate the possibilities on how to solve this problem.

Any Ulrich
